If you can inform me the sire of a calf that I bought five years since of Bartholomew Cavagna or as some call him Monkey John, White Rose is the dam of the calf. You gave me the pedigree of the heifer, White Rose when I bought her of Bartholomew & he said that he bought her of you or your Nephew & that she wos with calf when he bought her but he does not know by whot bull, Now if you or your Nephew can tell the name of the bull or give the pedigree of him it would very much oblidge me. if he is an American Herd book animal his name is sufficient. I can get it out of the heard book. Any information on this subject will be thankfully received

After so long time your lathe is done & shipt yesterday. It seems there has been some mistake in having the Lathe fitted up. Whe you wrote it was some time before I had any business at Cincinnati & Br. Abiathar Babbit had an errand there I thought best to have him hunt the patterns & order the Lathe which he did with written instructions from Elder John, he having more knowledge than any one here about the patterns, It seems the Brethren from White Water ordered a lathe at the same time & they wanted their lathe fit up I. suppose is the reason of the mistake of your lathe being fit up. But Elder John thinks the charge reasonable if the Lathe is fit up as we do them Sorry the mistake has been made

Friend Meredith,

I have consulted our brethren on the subject you mentioned, and they consent to let you put one cow to Capt. Balco, & warrant her in calf for One hundred dollars Cash. We had about concluded not to let his services any more at present, but finally consent to take a very few, as a matter of accomodation.

I should have been pleased to have availed myself of the acceptance of your kind invitation to attend your sale, but pressing calls prevented. Please answer by return mail whether you conclude to put your cow to Balco, as others are wanting the same privilege, and we wish not to promise not more than a Certain number.

D. McMillan }
Xenia. O. } Respected Friend

Yours of March 26th. came duly to hand. I would say in relation to your former proposals for compromise they have not been liberal enough on your part (we think) to near compensate for value received, to accept. We have thought and still think, that you ought to do more, considering all the circumstances; but as one of our brethren Luther Ransom is going in that direction to collect some money due us, we had thought of his calling to look at the tract of land you say you purchased for our benefit, cornering with the Quarter near Sailes; & perhaps he will look at the other tracts so as to form a more correct & additional, judgment, as to the value of your lands. Under these circumstances we would want to know whether you have disposed of the quarter you mention, or whether you hold it yet. And also whether or not we can have it included in the lot of land to select from if we think proper to take the whole amt. in land, and at what rate would be your cheapest valuation. We think you might afford to do something more than you have yet offered. We also wish you to send us your map of those KanKaKee lands to the Lebanon House at Lebanon. I wish also to have you state whether the tract that is near Hearsons (that he represented so wet as be impossible to travel over it only in a skift except a small portion which he called Grape iland) is included in the article — in short whether all the land is included in the artickle that was in the original bargain. I have not the article before me, and if I had I do not Know whether I could tell, unless I had the map of the land which I wish I wish you to send me. What we want now is to have the matter fairly understood and all taken into the account that is admissible, as there is a new hand expected to look at it; and when he returns we probably will give you an answer what course we will take for an adjustment of of the matter. Please attend to this matter soon, as we expect to start on the journey as soon as the answer comes to hand. Yours Respectfully

Dear Friend Yours of the 4th is before me making enquire about pedigrees, as one of the bulls in the pedigree has never been recorded I would recommend you to send them & have them recorded & that would I suppose stop all further dispute on the subject, — He will charge you one dollar for recording the two animals, I have made them out in full except the name of the Cow which should be wrote by you at the top of the pedigree in the brackets, — This pedigree sent to the Editor of the Herd book & you enclosing one dollar will be recorded without much doubt, I have not heard yet, when the 6th Vol, is to be out, but I suppose it will be soon, — My Charge will be one dollar, If you should prefer that I would take the burden & trouble of sending them to be recorded You may enclose to me two dollars & I will tend to it & see that they are recorded in the next Vol. A. H. B.

Yours Truly
Peter Boyd

OVER

Our Sunday Afternoon.

GIVE A KIND WORD WHEN YOU CAN.

Do you know a heart that hungers
  For a word of love and cheer?
There are many such about us;
  It may be that one is near.
Look around you. If you find it,
  Speak the word that's needed so,
And your own heart may be strengthened
  By the help that you bestow.

It may be that some one falters
  On the brink of sin and wrong,
And a word from you might save him—
  Help to make the tempted strong.
Look about you, O my brother!
  What a sin is yours and mine
If we see that help is needed
  And we give no friendly sign.

Never think kind words are wasted,
  Bread on waters cast are they,
And it may be we shall find them
  Coming back to us some day.
Coming back when sorely needed,
  In a time of sharp distress;
So, my friend, let's give them freely;
  Gift and giver God will bless.
